PRINCETON, NJ; August 14, 2013 — NRG Yield, Inc. (NYSE: NYLD) today reported second quarter 2013 financial and operating results. NRG Yield, Inc. closed its initial public offering on July 22, 2013 and the financial and operating results for the second quarter 2013 discussed below reflect the results of the predecessor of the Company.

“We are pleased to report strong financial and operating results for the first quarter following our successful initial public offering,” said NRG Yield Chairman, Chief Executive Officer and President David Crane. “We believe this marks the beginning of our effort to deliver a consistent, predictable and steadily growing stream of distributable cash flows from our contracted asset portfolio to our shareholders.”

Total Liquidity	84	42

As of June 30, 2013, NRG Yield had total liquidity of \$84 million, an increase of \$42 million from December 31, 2012, driven by \$21 million in 1603 cash grant proceeds from the Avra Valley solar project net of repayment of the cash grant bridge loan, as well as \$23 million of cash held in reserve for remaining construction payments related to the Marsh Landing facility.

On July 22, 2013, the Company raised \$468 million in its initial public offering with the sale of 22,511,250 shares of Class A common stock and used \$395 million to purchase Class A units in NRG Yield LLC from NRG Energy Inc. representing a 29.1% interest. It also used \$73 million to purchase an additional 3.5 million Class A units, or 5.4% interest, in NRG Yield LLC with such funds earmarked for general corporate purposes. Concurrently, NRG Yield LLC, through its ownership of NRG Yield Operating LLC, acquired a portfolio of solar, wind, and natural gas generation and thermal infrastructure assets, primarily located in the Northeast, Southwest and California regions of the United States from NRG Energy Inc. in return for 42,738,750 Class B units in NRG Yield LLC. In connection with the initial public offering NRG Yield LLC and NRG Yield Operating LLC entered into a \$60 million senior secured revolving credit facility.

Guidance

NRG Yield is reaffirming the Adjusted EBITDA and Cash Available for Distribution guidance as forecasted in our prospectus of July 16, 2013 of \$282 million and \$87 million, respectively, for the twelve months ending June 30, 2014 and \$286 million and \$105 million, respectively, for the twelve months ending June 30, 2015. We are also providing Adjusted EBITDA guidance for the twelve months ending December 31, 2013 and 2014, of \$240 million and \$285 million respectively, and Cash Available for Distribution guidance for the twelve months ending December 31, 2013 and 2014 of \$72 million and \$103 million, respectively. Finally, we are also reaffirming our intention to pay a pro-rated initial quarterly dividend of \$0.23 per share of Class A common stock (calculated from the closing date of the offering through and including September 30, 2013, and based on our initial quarterly dividend of \$0.30) expected to be declared and paid during the fourth quarter 2013.

Safe Harbor Disclosure

This news release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Such forward-looking statements are subject to certain risks, uncertainties and assumptions and include our Adjusted EBITDA, cash available for distribution, expected earnings, future growth and financial performance, and typically can be identified by the use of words such as “expect,” “estimate,” “anticipate,” “forecast,” “plan,” “believe” and similar terms. Although NRG Yield believes that its expectations are reasonable, it can give no assurance that these expectations will prove to have been correct, and actual results may vary materially. Factors that could cause actual results to differ materially from those contemplated above include, among others, general economic conditions, hazards customary in the power industry, weather conditions, competition in wholesale power markets, the volatility of energy and fuel prices, failure of customers to perform under contracts, changes in the wholesale power markets, changes in government regulation of markets and of environmental emissions, the condition of capital markets generally, our ability to access capital markets, unanticipated outages at our generation facilities, adverse results in current and future litigation, failure to identify or successfully implement acquisitions, our ability to enter into new contracts as existing contracts expire, our ability to obtain anticipated Section 1603 Cash Grants and our ability to maintain and grow our quarterly dividends. Furthermore, any dividends are subject to available capital, market conditions, and compliance with associated laws and regulations.

NRG Yield undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. The Adjusted EBITDA and cash available for distribution are estimates as of today’s date, August 14, 2013, and are based on assumptions believed to be reasonable as of this date. NRG Yield expressly disclaims any current intention to update such guidance. The foregoing review of factors that could cause NRG Yield’s actual results to differ materially from those contemplated in the forward-looking statements included in this news release should be considered in connection with information regarding risks and uncertainties that may affect NRG Yield’s future results included in NRG Yield’s filings with the Securities and Exchange Commission at www.sec.gov. In addition, NRG Yield makes available free of charge at www.nrgyield.com, copies of materials it files with, or furnish to, the SEC.

EBITDA and Adjusted EBITDA are non-GAAP financial measures. These measurements are not recognized in accordance with GAAP and should not be viewed as an alternative to GAAP measures of performance. The presentation of Adjusted EBITDA should not be construed as an inference that NRG's future results will be unaffected by unusual or non-recurring items.

EBITDA represents net income before interest (including loss on debt extinguishment), taxes, depreciation and amortization. EBITDA is presented because NRG Yield considers it an important supplemental measure of its performance and believes debt-holders frequently use EBITDA to analyze operating performance and debt service capacity. EBITDA has limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for analysis of our operating results as reported under GAAP. Some of these limitations are:

- EBITDA does not reflect cash expenditures, or future requirements for capital expenditures, or contractual commitments;
- EBITDA does not reflect changes in, or cash requirements for, working capital needs;
- EBITDA does not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments, on debt or cash income tax payments;
- Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and EBITDA does not reflect any cash requirements for such replacements; and
- Other companies in this industry may calculate EBITDA differently than NRG Yield does, limiting its usefulness as a comparative measure.

Because of these limitations, EBITDA should not be considered as a measure of discretionary cash available to use to invest in the growth of NRG Yield's business. NRG Yield compensates for these limitations by relying primarily on our GAAP results and using EBITDA and Adjusted EBITDA only supplementally. See the statements of cash flow included in the financial statements that are a part of this news release.

Adjusted EBITDA is presented as a further supplemental measure of operating performance. Adjusted EBITDA represents EBITDA adjusted for mark-to-market gains or losses, asset write offs and impairments; and factors which we do not consider indicative of future operating performance. The reader is encouraged to evaluate each adjustment and the reasons NRG Yield considers it appropriate for supplemental analysis. As an analytical tool, Adjusted EBITDA is subject to all of the limitations applicable to EBITDA. In addition, in evaluating Adjusted EBITDA, the reader should be aware that in the future NRG Yield may incur expenses similar to the adjustments in this news release.

Cash available for distribution is adjusted EBITDA plus cash dividends from unconsolidated affiliates, less maintenance capital expenditures, pro-rata adjusted EBITDA from unconsolidated affiliates, cash interest paid, income taxes paid, principal amortization of indebtedness and changes in others assets. Management believes cash available for distribution is a relevant supplemental measure of the Company's ability to earn and distribute cash returns to investors.
